Post-Conquest Materiality: Objects in the Histories of the Ottoman and Spanish Expansions

Workshop, 12th – 13th May 2023

This workshop is the second of a series of workshops exploring the similarities, differences, and connections between the Ottoman and Spanish histories of expansion in the early modern period as well as their lasting memories until today. It brings together scholars of the Ottoman Empire, colonial Latin America, and Western Europe to discuss how the Ottoman and Spanish conquests changed the meaning and use of objects of previous civilizations and how, in turn, these objects shaped post-conquest societies and cultures.
